

## *Welcome to RegulatorGuards*

At RegulatorGuards we are Education Sector Strategists and Regulatory Attorneys whose ambition is to level the regulatory playing field for small business.

We exist to protect small businesses from government overreach and to give small business owners the peace of mind that their livelihoods are safe and that they are free to operate their businesses without fear of unnecessary harassment, bullying, or trade restraints by government or its officials.

Your business may be small in the world, but it is large to you, your family, your employees, and the customers who rely on you for goods and services.

Your business is large to us at RegulatorGuards as well. We believe you deserve the same quality of representation that larger businesses have at their disposal. You deserve to exploit your talents and labor to the fullest extent of the law. You deserve a business partner with the ability, experience, and will to fight for you. You deserve a Regulator Guard.

So, welcome to **RegulatorGuards** – *Leveling the Regulatory Playing Field for Small Business!*

from the desk of:

**The Executive Team**
